## PROFESSIONAL SUMMARY

Frontend-focused Software Engineer with experience building scalable mobile applications using React Native and TypeScript. Skilled in developing high-performance, API-driven applications with clean UI architecture, real-time features, and modern state management. Experienced working in startup environments delivering production-ready mobile solutions and admin dashboards.

## SKILLS

- **Mobile Development:** React Native (CLI & Expo), React.js, JavaScript (ES6+), TypeScript
- **State Management & APIs:** React Query, REST APIs, API Integration
- **Backend & Databases:** Firebase, Node.js, Express.js, MongoDB, MySQL, Supabase
- **UI & Styling:** Styled Components, Native UI Components, Animations
- **Tools & Platforms:** Git, GitHub, VS Code, Razorpay, Google Vision API
- **AI & Automation:** OpenAI API, Gemini API, Prompt Engineering, AI Chatbot Integration

## EXPERIENCE

**Junior Software Developer (Frontend/ React Native) — Kriotek Pvt. Ltd.** Aug 2024 – Present

- Developed and maintained production-grade React Native applications using TypeScript, contributing to scalable client-facing mobile products with optimized UI performance.
- Built responsive cross-platform mobile interfaces and integrated REST APIs, payment gateways, email services, and AI-powered chatbot features, improving feature delivery efficiency and user experience.
- Collaborated with backend and product teams in a fast-paced startup environment to deliver scalable mobile solutions and improve app stability.
- Contributed to feature optimization, bug fixing, and performance improvements across multiple applications.

**Web Design Intern — Web IT Solution** Mar 2023 – Jun 2023

Designed and implemented responsive website layouts using HTML5, CSS3, and JavaScript.

## PROJECTS

### QuickBite — Food Ordering Platform

- Developed a full-stack food ordering ecosystem including a customer mobile app, responsive web application, and admin dashboard.
- Implemented restaurant browsing, cart handling, secure payments, and real-time order tracking features, improving ordering workflow and user engagement.
- Created an admin dashboard to manage restaurants, orders, users, menus, and delivery status efficiently.
- Integrated Firebase authentication, REST APIs, and Razorpay payment gateway for seamless user experience.
- Tech Stack: React Native Expo, React.js, TypeScript, React Query, Firebase, REST APIs, Razorpay.

### LuxeJewels — Jewellery Shopping & Catalog App

- Developed a jewellery shopping mobile application with an admin dashboard for managing products,

categories, orders, and users.

- Built features including detailed product catalogs, high-quality image galleries, wishlist functionality, and secure checkout experience.
- Designed responsive and visually optimized mobile UI/UX for seamless product browsing and checkout experience.
- Integrated Firebase authentication, REST APIs, and Razorpay payment gateway for seamless transactions.
- Used React Query for efficient API data fetching, caching, and state management.
- Tech Stack: React Native CLI, TypeScript, React Query, REST APIs, Firebase, Razorpay.

**PrepGenius AI — AI-Powered Interview Preparation Platform**

- Developed an AI-driven interview preparation application enabling users to participate in mock technical and HR interview sessions.
- Implemented AI-based question generation, answer evaluation, performance tracking, and personalized interview feedback using OpenAI/Gemini APIs.
- Built an admin dashboard to manage interview content, user analytics, and platform activity.
- Integrated Firebase authentication, REST APIs, and cloud database support for scalable user management.
- Tech Stack: React Native, TypeScript, Firebase, React Query, OpenAI/Gemini APIs.

**TastyPlates — Restaurant Ordering App (Client Project)**

- Developed a restaurant-focused food ordering mobile application with menu browsing, item customization, cart management, and order tracking functionality.
- Integrated REST APIs, Firebase services, and Razorpay payment gateway to support seamless ordering and secure transactions.
- Optimized mobile UI/UX for smooth and responsive ordering experience.
- Tech Stack: React Native CLI, TypeScript, React Query, Firebase, Razorpay.

**Retail Pro — Retail Management App (Client Project)**

- Built a mobile application for local shopkeepers to manage inventory, product sales, and e-commerce integrations efficiently.
- Integrated Google Vision API for product-related automation features and implemented scalable API-driven architecture.
- Developed responsive mobile interfaces with secure payment integration using Razorpay.
- Tech Stack**:** React Native CLI, TypeScript, React Query, REST APIs, Google Vision API, Razorpay.

## Education

**Aug 2020 – Jun 2024 | Rajiv Gandhi Proudyogiki Vishwavidyalaya** SGPA: 7.56

B.Tech in Computer Science – Software Engineering
